

SPEAKERS: BANANA PLUG > 90° ANGLE

90° Angle Banana Plug connectors for Speaker wire

APPLICATIONS

- Speakers
- Receivers
- Amplifiers

SYSTEM

- Speaker Wire
- +
- Banana Plug > 90° Angle connectors

ADVANTAGES

Wire + Connector

- No special installation tools required
- No soldering

Wire

- Installs on surface of walls and ceilings
- Easily concealed foil-thin wire bends to any angle
- Paintable

Connector

- Removable plastic sleeve for a compression interference fit
- Large surface contact area between wire and connector

FEATURES

Wire

- FlatWire connectors ensure exact placement of components and easy installation
- Custom strain reliefs provide a template to easily expose conductors

Connector

- Gold-plated spring collar
- Compatible with most speaker binding posts
- Compatible with most high-end Receivers and Amplifiers
- Red & black coloring to identify separate speaker leads
- Corrosion-free

SPECIFICATIONS

Wire

- Length: 25', 50', 100', 500' (7.6m, 15.2m, 30.5m, 152.4m)
- Width: 2.274"
- Thinness: 0.008", 0.006", 0.004"
- Maximum length depends on user applications: gauge and power load

Connector

- Length: 1.563" (39.700mm)
- Width: 1.750" (44.450mm)
- Height: 0.375" (9.525mm)
