

SPEAKERS: 5-WAY WALL BOX

5-way Wall Box connector for Speaker wire

APPLICATIONS

- Speakers
- Receivers
- Amplifiers

SYSTEM

- Speaker Wire
- +
- Pin Connectors

ADVANTAGES

- Installs on surface of walls and ceilings
- No special installation tools required
- No soldering required
- Paintable

Wire

- Easily concealed foil-thin wire that bends to any angle

Connector

- Also mounts behind a customized wall plate
- Large surface area between wire and connector

FEATURES

Wire

- FlatWire connectors ensures exact placement of components and easy installation
- Custom strain reliefs provide a template to easily expose conductors

Connector

- 5-Way binding posts accept banana plugs, dual banana plugs, pin or spade connectors and bare wire
- Removable screw-on post nuts
- Reversible Black and Red post nuts provide easy polarity configuration
- Flexible, gold-plated spring contacts
- Paintable ABS plastic shell
- Corrosion-free

SPECIFICATIONS

Wire

- Length: 25', 50', 100', 500' (7.6m, 15.2m, 30.5m, 152.4m)
- Width: 2.274"
- Thinness: 0.008", 0.006", 0.004"
- Maximum length depends on user applications: gauge and power load

Connector

- Length: 2.025" (57.150mm)
- Width: 2.950" (74.930mm)
- Height: 0.959" (24.358mm)
